COLLEGE.

MOUNT ST. MARY'S COLLEGE

Is situated in a romantic and beautiful part of Frederick County, Maryland—embosomed in woods, and retired from the distractions and moral dangers of a city. The site is peculiarly healthy, and is supplied with the purest water by a spring gushing from the rock. It is distant fifty miles from Baltimore, eighteen from Frederick, Md., twelve from Gettysburg, Pa., and two from Emmittsburg, Md. The buildings are sufficient for the accommodation of two hundred boarders. The various halls and rooms are spacious, airy, and comfortable.

This Institution was raised to the rank and invested with the powers and privileges of a College, by the General Assembly of Maryland, in the month of February, 1830. It is under the direction of an Association of Secular Clergymen of the Roman Catholic Church, and all its pupils are instructed in the doctrines and trained to the practice of the Catholic religion.

The system of education embraces the various Arts and Sciences usually taught in Colleges, conducted on the most comprehensive plan. A competent knowledge of the Greek and Latin Languages and Literature, of Mathematics, Natural Philosophy and Chemistry, Logic, Moral and Intellectual Philosophy, Geography, Rhetoric, History, and English Composition, is, by the statutes of the College, indispensable for graduation. French, Spanish, and German are taught by able and experienced Professors. The College is provided with ample means of imparting the education it professes to give, and of so maintaining its laws and discipline as to produce general content and happiness, while it commands the respect of the students, and realizes their hopes and those of their parents and guardians.

It has a Library for the use of the students, an excellent Philosophical Apparatus, a Chemical Laboratory, and a Mineralogical Collection.

The Professors and Tutors, about thirty in number, residing, with very few exceptions, in the Institution, devote themselves entirely to the duties of their profession. Constituting but one family with the students, they exercise not only a constant supervision—friendly in the highest degree to discipline and decorum—but also a moral and religious influence of the most salutary kind. The students are

never permitted to go beyond the College limits, except in company with one of them. On the other hand, ample opportunity is afforded by the retired and rural situation of the College, for the pupils to enjoy, under the care of their teachers, every variety of innocent and healthful recreation, and abundant provision is made for gymnastic and other wholesome exercises. Hence the formation of a robust constitution is in general a result of some years' residence in this Institution. Their diet is always wholesome and abundant. In sickness they are nursed and watched over with parental solicitude, and all the care that parents can desire, is given to the wardrobe, dormitories, and all those departments on which health, comfort, and economy depend.

While the government of the College is mild and parental, the laws of good order, propriety, and morality are strictly enforced. The moral influence of instruction, persuasion, and encouragement is primarily and mainly relied on, and is seldom found ineffectual.

The penalty of dismissal or expulsion is incurred by wanton and repeated violation of the established rules, irreligious language or writings, the introduction of infidel or immoral books, and other grave offenses against morality or the laws of the College. Vicious and disorderly students cannot be retained.

Students who come from other Colleges, must produce certificates of good standing and character.

When a student enters the College, he is admitted to those classes which he is found capable, on examination, of attending with advantage. The most eligible time for entering is from the 15th to 23d of August; but applicants may be received at any time, and will be charged from the date of entrance.

Frequent examinations of the different classes take place during the academical year. Reports of the students' progress in the several branches of study are read publicly every Wednesday, in the presence of all their Professors and Tutors, and twice a year a report is sent to the parents or guardians, stating everything that may interest them concerning their children or wards.

The Commencement is held on the last Wednesday of June, previous to which the candidates for literary honors are examined publicly; premiums are then distributed to the meritorious, and degrees conferred.

Those who receive the degree of "Bachelor of Arts," are required to write and deliver discourses approved of by the Faculty. To be

admitted to this degree, it is necessary that the candidate should have gone through at least the last year of the course in this Institution, and have acquitted himself creditably, so as to give clear evidence of his worthiness, both at the private and public examinations.

Those who have received from the Faculty of this College the degree of Bachelor of Arts, and have during at least two years thereafter been engaged in scientific and literary pursuits, will also receive the degree of "Master of Arts," on application made to the President and Faculty, accompanied by satisfactory evidence of their moral deportment and continued devotion to liberal studies.

The annual vacation begins on the last Wednesday of June, and continues until the twenty-fourth of August. There being no Christmas or Easter recess, students should not be withdrawn from their classes at either of those periods.
